ADDITIONAL HOSE FOR MOST TURBO TURF JET UNITS

Turbo Turf's hydroseeding hoses are light and easy to handle. The spiral reinforced green hydroseeding hose on our jet agitated units is very kink resistant. The braided hose is rated for higher pressure and has a smooth inner wall to limit loss of spray power. The braided hose comes with scovil fittings (free flow) that minimizes the chance for clogs in your hydroseeding hose.

Turbo Turf Hydro Seeding Systems come complete with hose, gun, nozzles and everything you need to hydro seed. However if you wish to add additional hose to your unit or prefer to have a hose reel rather than the hose holders, want to add an ice control package to use the unit year round this listing of available options will allow you to do that.
