Turbo Turf's Straw Blower

- Blows 2-3 bales per minute
- No Blades to sharpen or reverse
- Blow straw up to 50 feet
- Use up to 100 feet of hose (hose optional)
- Cover up to an acre per hour
- 360 degree cannon

Turbo Turf's Straw Blower will let you cover a acre in less than an hour. It will blow 2 to 3 bales per minute to get your job done fast. The coverage is more even which means you can get the same results using 20% less straw. Blowing straw using a Turbo Turf Straw Blower is 10 times faster than shaking straw by hand. Turbo Turf's Straw Blower can blow both straw and hay and can even handle damp straw but at a slightly lower rate. The 360 degree cannon allows you to place the straw where you want it to be quickly and easily and can eliminate the need for a second person holding the hose. If you need extra reach as an option the unit can be equipped with a hose and it can spray through up to 100 feet of 6" I.D. smooth walled hose. The feeding tray folds out of the way when not in use making it a compact unit for easy storage. The Turbo Turf Straw Blower can be operated from a trailer or the back of a truck.

Turbo Turf's Straw Blower is made to require little service. Straw is cut by 4 pair of beater chain. There is no need to sharpen or reverse knives like other units. The 16 inch blower fan is made from 1/4" plate steel and dynamically balanced for smooth operation. The belt drive is a triple V-Belt for long life. Turbo Turf's Straw Blower is available with either a 20 H.P. Kohler Command Pro electric start engine or a 20 H.P. Honda electric start engine. All components are heavy duty and designed for long life.

GREAT PERFORMANCE & LOW MAINTENANCE

Turbo Turf's Straw Blowers use heavy duty chains to cut the straw into 4" lengths and a 16" 8 blade fan that is dynamically balanced to blow the straw.

The discharge spout rotates 360 degrees to allow the operator to blow straw 35-50 feet in any direction from the unit.

When a longer distance is needed the Turbo Turf TM-20 Straw Blower can handle up to 100 feet of discharge hose allowing you to blow straw 115 -120 feet from the unit.

A heavy duty triple v-belt drive provides smooth power.

TM- 20 -K with Kohler 20 H.P engine
